Unhappy Without You

Brian McKnight

Listen, girl we really need to drop it out
Somethings I know I need to say out loud, can we talk about it
There are matters what you need to know
And how you act determines where we go, so here we goI don't wanna be all by myself
But I can be unhappy without you
I can be unhappy without you, out you
I don't want nobody else
But I can be unhappy without you
I can be unhappy without you, out youI can be unhappy without you
I can be unhappy without you
I can be unhappy without you
Without you, out youI hate it when you turn it off and on
When the mornin' love is right then you turned of and the day is gone
It's like a cycle through what's going on
It almost like we don't want it, I'm losing you and I don't know whyUsed to feel so good and used to be so right
Used to make love to me every single night
Girl, how can we get back to that blissful synergy, yeah
You gotta give me everything, if you wanna be with meI don't wanna be all by myself
But I can be unhappy without you
I can be unhappy without you, out you
I don't want nobody else
But I can be unhappy without you
I can be unhappy without you, out you, singI can be unhappy without you
I can be unhappy without you
I can be unhappy without you
Without you, out youI can be unhappy without you
I can be unhappy without you
I can be unhappy without you
Without you, out youUsed to feel so good and used to be so right and
Used to make love to me every single night
Girl, how can we get back to that blissful synergy, yeah
You gotta give me everything, if you wanna stay with meI don't wanna be all by myself
But I can be unhappy without you
I can be unhappy without you, out you
I don't want nobody else
But I can be unhappy without you
I can be unhappy without you, out you, yeahI don't wanna be all by myself
But I can be unhappy without you
I can be unhappy without you, out you

I don't want nobody else
But I can be unhappy without you
I can be unhappy without you, out you, yeahI can be unhappy without you
I can be unhappy without you
I can be unhappy without you
Without you, out youI can be unhappy without you
I can be unhappy without you
I can be unhappy without you
Without you, out you
