# Alpenglow (Instrumental)

## Nightwish

Once upon a time a song was heard
Given birth to a child of earth and furs
Together we slay another fright
As we jump jump birds move soft and past
Close your eyes and take a peek
The truth is easy to see(Chorus)
We were here, roaming on the endless prairie
Writing an endless story
Building a walden of our own
We were here, grieving the saddened faces
Conquering the darkest places
Time to rest now and to finish the show
And become the music of the Alpenglow(Verse 2)
Hand in hand, guiding me into light
You, the fairy tale guise in blue and white
Together we stay another fright
As we jump jump birds move soft and past
Close your eyes and take a peek
The truth is easy to see(Chorus)(Guitar solo)(Bridge)
You are my path, my home, my star
A beautiful tale where men don't tame
And when the dust needs to move on
I will tuck, conceal on a bed of snow
Painting whites, silence in the valley
Living together, sleep devoured by love(Chorus)
