

Forever Is Tomorrow Is Today

David Gray

Tuesday
My heart is brimmin'
I'm a child
In the wild wind Dead leaves
And daylight dimmin'
No beginnin'
And no end Inside a candle
Of defiance
Moonlight
A river of pearls 'Cause you're gonna need more
Than money and science
To see us through this world You say it can't be done
You'd rather die of fun
Get out of the way For me, for you
For everyone
Forever is tomorrow
Is today Shut down the windows
And lock all the doors
Keepin' it all out of sight We're keepin' it all
It's tearin' us apart You don't know your good
From your bad from your black
From your blood from your wrong
From your right So you camouflage
Your heart I don't want
No other distractions
There's too much
Here to see Faint hearts
Or jaded reactions
Contraptions
Of history You say it can't be done
You'd rather die of fun
Get out of the way For me, for you
For everyone
Forever is tomorrow
Is today Shut all the windows
And lock all the doors
Keepin' it all out of sight
I'm keepin' it all It's mine
And mine alone Corrosion, collision

I need a vision
Tear off the cloak of the night
And shatter eyes of stone You say it can't be done
You'd rather die of fun
Get out of the way For me, for you
For everyone
Forever is tomorrow
Is today For me, for you
For everyone
Forever is tomorrow
Is today For me, for you
For everyone
Forever is tomorrow
Is today You say it can't be done
You'd rather die of fun
Get out of the way For me, for you
For everyone
Forever is tomorrow
Is today For me, for you
For everyone
Forever is tomorrow
Is today For me, for you
For everyone
Forever is tomorrow
Is today Trash the future
Values doesn't suit you
Open your eyes away
Way, yeah
