Spanish Fly

Suicide City

A thousand miles between our lips
was wasted time I tried to kiss
Spanish fly

Killing your loved ones
for progress and energy
I'll always fight
what happened on that night
shamefully thinking
what I want you to go through
relaxing into my pain
my temper

I know now what is real
you'll never see me again
I pray you'll live for me
because I am not man
religeon has passed on me
I disrespected an angel
sliding down the razor
it's delightful
