Mad

Krys

Called me screamin' tellin' me your leaving
You can't take it no more
But that's so crazy 'cause it's me who's fed up
You been messin' up
I been sittin' and waitin' but now I'm pointless
You pushed me over and over again
Don't know how to talk to me, don't know how to treat me
But your twisted in your head somehow you reversed it
I make you, I make you
Mad is what you say I make you baby
You ain't seen, mad baby
Until you've seen what you created in me
Many years gone by my life gone with them
Thinkin' you change but I don't know why
Givin' everything gettin' nothin' but your coldness, boldness
Total disregard for me and my feelings
Don't have to deal with this
Lookin' at you makes me sick
You treat me so nasty the thought of you touchin' me
Makes me wanna vomit baby but somehow you reversed it on me
I make you, I make you
Mad is what you say I make you baby
You ain't seen, mad baby

Until you've seen what you created in me
I make you, I make you
Mad is what you say I make you baby
You ain't seen, mad baby
Until you've seen what you created in me
Done nothin' but takin' advantage of me
Mistaken my niceness for someone weak
And now you tellin' me you gon' leave
Well, after all you done to me that would be the nicest thing
Called me screamin', tellin' me your leaving
You can't take it no more
But that's so crazy 'cause it's me who's takin' all I can take
I've crossed over from love to hate
I make you, I make you
Mad is what you say I make you baby

You ain't seen, mad baby
Until you've seen what you created in me
I make you, I make you
Mad is what you say I make you baby
You ain't seen, mad baby
Until you've seen what you created in me
