One Love

BlackHawk

We are just children in His hands
Two in a million, precious grains of sand
We sift through His fingers, dancing on the wind
We find each otherOne you, one me, one chance for us to live
One heart, one soul, one life for us to give
One dream, one sky, one God up above
One you, one me, one loveA star made a wish on us tonight
Hanging out in Heaven, inspired by our light
'Cause He knows how it feels to shine upon the world
And last foreverOne you, one me, one chance for us to live
One heart, one soul, one life for us to give
One dream, one sky, one God up above
One you, one me and one loveJust two in a million precious grains of sand
We found each other, together
Yeah, yeah, yeah, yeah, yeahOne you, one me, one chance for us to live
One heart, one soul, one life for us to give
One dream, one sky, one God up above
One you, one me and one loveYeah, yeah, yeah, one love
One you, one me, just one love
One you, one me, one love
Yeah, yeah, yeah
