

# The War Ender

## Becoming the Archetype

I spoke to the heart of darkness  
Let there be light  
I reached into the dead man's chest  
And brought him back to life  
Let there be light I am the shock to the system  
Reanimation is in My hands  
I am He that buries men alive I am the shock to the system  
Reanimation is in My hands  
I hold the keys of life and death  
And nothing can stand against My plans I am He that buries men alive Drowns them and draws them out to thrive  
I make the blood flow through your veins  
I am the author of your final chapter  
The bringer of life and the bringer of pain For a time, there is war  
So that war can yield peace  
But I am Lord  
Despite your pain and disease The trials and battles of life  
The endless burden of strife  
The final breath of these monsters  
I will bring to pass I lay in the ruins of the war machine  
I conquer the conquering  
War-ending angels I will deploy  
The destroyer I will destroy
