Kiss Goodbye

The Bop Cats

This is the final morning
And that is all we have,
These are the lines that I have left.
We tried to make it baby,
We tried it more than bad.
End of the lifeline,
Nothing to refine.
We've seen the joy and glory,
We've gone down with the sun.
We've said and heard the ugly lines.
It's not the way we planned it
And now the time has come.
Let's set it all right,
It's time to kiss goodbye.
It's all been done,
We failed long time ago and we know why.
It's all gone now
And there's no need to try,
It's time to kiss goodbye.
Somebody wise has told me,
Don't leave with angry eyes,
Don't turn away with hate inside.
Try to be brave for me,
Because I think I can't
Let's end it all right.
This is the final morning,
This is the end my dear,
Now is the time to say true words.
We tried to make it baby,
We tried it all the time.
This is the last time,
It's time to say goodbye.
It's all been done,
We failed long time ago and we know why.
It's all gone now
And there's no need to try,
It's time to kiss goodbye.
It's all been done,
We failed long time ago and we know why.

It's all gone now
And there's no need to try,
It's time to kiss goodbye.
