

Beg for the Night

Twin Shadow

(Verse)

Come beg for the night

Feel a bit warm

Don't cry on the dark

Just walk through the door(Verse)

I ran out of words

Some from your lips

I know it's absurd

To shake when we kiss

Here it goes, here it goes(Pre-Chorus)

Here comes your love

Belongs to you

Here comes your soul burn

I have to be with you(Chorus)

When this love starts

Won't hurt anymore

Will you need me again

You'll be all on your own

When this love starts

Won't hurt anymore

If you need me again

Let me know(Verse)

I'm in love with the light

Just show it more

I'll wait for the night

If you walk through the door(Verse)

I want every word up

On your lips

I know it's absurd

Just cherish every kiss

Here it goes(Pre-Chorus)

Here comes your love

Belongs to you

Here comes your soul burn

I have to be with you(Chorus)

When this love starts

Won't hurt anymore

Will you need me again

You'll be all on your own

When this love starts
Won't hurt anymore
If you need me again
Let me know(Chorus)
When this love starts
Won't hurt anymore
Will you need me again
You'll be all on your own
When this love starts
Won't hurt anymore
If you need me again
Let me know
