I Cannot Escape the Darkness

Those Poor Bastards

There is a curse upon my every waking breath
(And I cannot escape the Darkness)
It feels like every step is going to be my last
(And I cannot escape the Darkness)

CHORUS
Some have tried to lift me up
But I only bring them down with me
(For I cannot escape the Darkness)

The iris of my eye is cancerous and blank
(And I cannot escape the Darkness)
Tear out your golden hair and stitch it to my face
(For I cannot escape the Darkness)

Some have tried to lift me up
But I only bring them down with me
(For I cannot escape the Darkness)

It's time I crept to go and find another
I love my hole, now just let me smother

Look at this worthless thing that slithers on your floor
(And I cannot escape the Darkness)
Just burn my eyelids shut then shove me out the door
(For I cannot escape the Darkness)
Some have tried to lift me up
But I only bring them down with me
(For I cannot escape the darkness)
It's time for I crept to go fin another
I love my hole, now just let me smother
