# Anniversary

## Aspen

I thought I'd write you something to remember me by
A commemorative for the two years you spent by my side
But every day is a new mistake
A new song to be written and erased
Why would you listen anyway?
Finally I'm going on with my life
What a big mistake it was, saving all my goodbye's
I'm not the type of person to get over it
It's stuck in the back of my mind along with the time we spent
Finally I'm going on with my life
What a big mistake it was, saving all my goodbye's
By the end of the year, you won't even be there
What a big mistake it was, I wanted you to be there
Piece it together along with all the rest
Don't forget to write
Warm your cold shoulder, don't listen to what they say
What they say
I thought I'd write you something to remember me by
Finally I'm going on with my life
What a mistake it was saving all my goodbye's
By the end of the year, you won't even be there
What a big mistake it was, I wanted you to be there
I wanted you to be there
