Bring You Down

Jadakiss

Top of the food chain, its just the way that I do things
The dungaree seats in the blue range, I'm workin' with new change
A Gemini nigga with mood swings had the fiends lookin' for new things
I stop playin' with birds and started playin' with words
The money wasn't right so I had to stay on the curb
And I'll be a playa later but for now call me Puve KissIf not that, mon' take it Jada, I kick hard balls and blow hard weed
And be everywhere 'cuz I move at God's speed
And my aim is make y'all bleed, y'all got embarrassed in da class
When the teacher used to make y'all read, uh huh, mind of matter
And that's all good but fuck that my new shit is spine over bladder
And everybody try to get to the top and that's all good too
But right now I'm on da ladderLook at you then and look at you now
Don't let this cold cold world bring you down
Look at you then and look at you now
Don't let this cold cold world bring you downI know your queen got her eyes on me, I got my eyes on your queen
The S M G is Heinekin green bad thing is you know before long
That we gon' get it on my kit cost thirty and ten to put it on
No tints windows clean heavy windex gears on the steerin' wheel
I shift her with my index real life is just in another form
Kiss of death its about to be another storm I'm a goddamn ragin' bullStay outta jail by just tellin' myself the cage is full
Got niggaz on the payroll just to squeeze you're in no position
To challenge my expertise they get a bonus if they leave you old school
From the era of the 45 with a penny on the needle
Ball to the bosses so please don't violate or cross him
Or you'll be the corpse of the corpsesLook at you then and look at you now
Don't let this cold cold world bring you down
Look at you then and look at you now
Don't let this cold cold world bring you downYou know the word anger is just one letter short of the word danger
And I ain't no stranger never use a ghat hold it twice if you don't clean it
And never say fuck somethin' if you don't mean it
And when it comes to life the root you been usin' thus far
Ain't workin' right take the scenicWhatever faith you got put it in a crook
Wanna hide somethin' from a nigga put it in a book
Trust me this album the vapors gonna go around if you ain't hot
You need paper to throw around yeah its gettin' clearer everyday

When you wake up in the morning, look in the mirror and sayLook at you then and look at you now
Don't let this cold cold world bring you down
Look at you then and look at you now
Don't let this cold cold world bring you down
