

All Worked Out

Urge Overkill

Well I thought I had something to say
I was worried about it anyway
I kept thinking it was all screwed up
How people keep a-wrappin shit up
Had a friend and he blew himself up
Cause all these people just wouldn't shut up
I don't wanna face
What's gonna happen here next

I just want outta here
I just don't even care
Cause I got it all worked out
Wouldn't you like that?
