Curious

Head Automatica

Speaking of Heaven
She looked like a God on earth
It was something I could not understand
Or explain
And I mean you don't know
The things I do while you are out cold
The things I do for you
Will lead to my breakdown
And I'm still curious
I'm curi-uri-ous
I'm still curious
Yeah
My baby kisses like a heart attack
Running like that
Squeezing till my face turns black
She pulls me under, she pulls me under
Girl, I mean you gotta know
The things I do for you while you are out cold
The things I do for you
Will lead to my breakdown
And I'm still curious
I'm curi-uri-ous
I'm still curious
Yeah
Breakdown
Breakdown
My breakdown
Breakdown, yeah
Curious
I'm curi-uri-ous
I'm still curious
Yeah
'Cause I'm still curious
I'm curi-uri-ous
I'm still curious
