Riverbed

ARI

You can't run away
Can't run away from
The lies and pain
Covered in makeup
Can't catch a break
A classical shake-up
You're in a dream- you're lucid so wake up.You're In a dream- You're lucid so wake up x4I pushed her into the water
I raised the dead that day.I stopped this, I stopped this
I let it all fall through.
When did this- this happen
What does it mean to you?I pushed her into the water
I raised the dead that day.I let this all happen
I kept it up for so long.
I ruined- ruined this
To sing the same old song.I pushed her into the water
I raised the dead that day.Sometimes it's better to burn your bridges
Instead of going back to bury them.Bad blood ain't shit until you start drinking,
Bad blood ain't shit until you start drinking it all.
Bad blood ain't shit until you start drinking.
Bad blood ain't shit until you start drinking it down. x2
