

# Find A Way

Elliott Yamin

A child is born not knowing a thing  
The pride and joy of momma's eyes  
A teenage boy knows next to nothing  
And yet he's called away to kill or die  
  
The life we live for some is easy  
And most of us just make it by  
My mother worked so hard to feed me  
It's a wonder how she never lost her mind  
  
The rain is falling from the sky  
It's getting harder to stay dry  
They say that pride goes before a fall  
Heaven help us all if love don't find a way  
  
I turned the news on just this morning  
Proclaiming all things justified  
If war is one side of the story  
Does it make sense for us to choose a side?

And when the end comes God forgive me  
For everything I've said and done  
If living is the price to be free  
Then I wish it was the same for everyone  
  
Rain is falling from the sky  
It's getting harder to stay dry  
They say that pride goes before a fall  
Heaven help us all if love don't find a way  
  
Oh, we've got to find a way  
Ooh, for everyone ooh  
They say that pride goes before a fall  
Heaven help us all if love don't find a way  
Yeah, yeah they say that pride goes before a fall  
Heaven help us all if love don't find a way, oh yeah
