KEY The Metal Idol

Falla di rainbow to di and di world
A fi cum bak fi cum stay wid dis girl
She bring a joy ina man world
I lament, I cry a tear whe who, fi dis girl yah
Style, Wayne Wonder tell dem 'bout it
I've been around da world
Dated many girls
But none compares to you
And da way she makes me feel
Inside I know it's real
It's like a dejavu
There's no doubt that you are special, baby
So this song is sentimental, really
I don't wanna see you worry over me
'Cause there's no ifs, no buts, no maybe
'Cause baby you're good enough, good enough
You in my life, it's so much better
Baby you're good enough, good enough
And to me there ain't no other
Baby you're good enough, good enough
In any type of weather
Baby you're good enough, good enough
So damn good, baby
See yah, how you hol' me tight
How yu squeeze me right
Mek me forget me, life time a fuss and fight
Dorett a say she check fi me but a yu mi like
Not a man of many words but you a mi choice
No other woman ever mek mi feel so nice
Whenever I'm around you nott'n but a good vibes
Di way you full a carisma mi see it ina you eyes
Good enough for me not fi rest a mankind
Feel good about yourself all di time
Clouds part ina di sky fi mek di sun shine
Call out mi same and be there anytime
With you by my side, my life feel divine
What another man lost, let Buju B find

Show mi di mountain, I man will climb

Just tell me you'd be mine until di rest of time
And he will never be apart no woman
Baby you're good enough, good enough
You in my life, it's so much better
Baby you're good enough, good enough
And to me there ain't no other
Baby you're good enough, good enough
In any type of weather
Baby you're good enough, good enough
Good enough baby
Made for each other, that is you and me
Could have been a player, pan a galist spree
You comfort I, I satisfy you, now we are inseperable
Buju Banton pan di ridim and a soso trouble
Woman I waan you fi roll and bubble
Can why, I tink dat you are good enough
Friend definitely serious hot stuff
Talk bout loving Buju caan get enough
Caan hol it down, caan resist to touch
A nuh bugu yagga, gal a decent stuff
And Buju Banton have up a crush
Baby you're good enough, good enough
In any type of weather
Baby you're good enough, good enough
Good enough baby
A me seh, how she hol me tight
How she squeeze me right
Mek me forget me life time a fuss and fight
Janet a say she check fi me but a yu mi like
Not a man of many words but you a mi choice
No other woman ever mek mi feel so nice
Whenever I'm around you nott'n but a good vibes
Di way you full a carisma mi see it ina your eyes
Feel good about yourself all di time
Clouds part ina di sky fi mek di sun shine
