## Younger

I thought I had more time with you now  
only in my mind is where you're found  
pictures of your smile made me drown  
memories

when I see you cross through?  
My heart breaks with the thought of you  
because we pretend like we never knew  
the love we shared  
before our time was up x2

still I wait for you  
to come back around  
time to slow myself down  
I will do what ever it takes  
to bring you back again my way

now that its all gone I wonder why  
you ever came into my life  
year and gone at the same time  
I cant believe that was all it was  
but that was all it was

still I wait for you  
to come back around  
time to slow myself down  
I will do what ever it takes  
to bring you back again my way
