

Lycanthropy

Six Feet Under

The blood of the wolf infects my body
In the night hear the howling
Screaming, flesh chewed to the bone
Bleeding, eternal horrorDying in the darkness
Now one of us
Bitten by the wolf
Now one of usWhen the moon is full
And the night comes down
Fear all unnatural sounds
Human beast, animal
Curse of the lycanthropyDying in the darkness
Now one of us
Bitten by the wolf
Now one of usCarnivorous
Lust for human flesh
Legacy of blood
Another victimCarnivorous
Lust for human flesh
Legacy of blood
Infected deadThe blood of the wolf infects my body
In the night hear the howling
Screaming, flesh chewed to the bone
Bleeding, eternal horrorWhen the moon is full
And the night comes down
Fear all unnatural sounds
Human beast, animal
Curse of the lycanthropy
