Lycanthropy

Six Feet Under

The blood of the wolf infects my body In the night hear the howling Screaming, flesh chewed to the bone Bleeding, eternal horrorDying in the darkness Now one of us Bitten by the wolf Now one of usWhen the moon is full And the night comes down Fear all unnatural sounds Human beast, animal Curse of the lycanthropyDying in the darkness Now one of us Bitten by the wolf Now one of usCarnivorous Lust for human flesh Legacy of blood Another victimCarnivorous Lust for human flesh Legacy of blood Infected deadThe blood of the wolf infects my body In the night hear the howling Screaming, flesh chewed to the bone Bleeding, eternal horrorWhen the moon is full And the night comes down Fear all unnatural sounds Human beast, animal
