Nothing Adventurous Please

Lambchop

Brought up around bad architecture
But it never was his fault
Between anxiety and longing
Even though, even though, even though
Keeps us out of trouble
Even though, even though, even thoughThere's something about it alright
This is something you know about alrightNothing, nothing, nothing adventurous please
Can you see that one coming?
A nothing adventurous please
Did you see that one, come in?
A nothing adventurous please
Did you see that one, come in?You just missed us
You just missed us
You just missed us
You just missed usStay real close
Can you see that one coming?
Stay real close
Did you see that one, come in?
Stay real close
Did you see that one, come in?You just missed us
You just missed us
You just missed us
You just missed usAnd nothing adventurous please
Can you see that one coming?
Nothing adventurous please
Did you see that one, come in?
Nothing adventurous please
Did you see that one, come in?You just missed us
You just missed us
You just missed us
You just missed us
