Teenage Rebel

Chameleon Circuit

I've had so many different faces, so many different personalities
My tastes change, I get cravings, but some things you can't take away from me
You can't stop me dreaming
I used to be old, but now I feel young
'Cause I was a boy when I learned how to run
I could never be settled in one time or place
I won't ever stop, 'cause I know what's right
Get in my way I will burst into light
I'll keep dying and living and changing my ways
But I was a teenage rebel and that stayed the same
It might feel like you're defeated, but I know that we all long to be set free
So overcome your monsters. Rise up, there is just one thing you need
Something to believe in

I used to be old, but now I feel young
'Cause I was a boy when I learned how to run
I could never be settled in one time or place
I won't ever stop, 'cause I know what's right
Get in my way I will burst into light
I'll keep dying and living and changing my ways
But I was a teenage rebel and that stayed the same
I used to be old, but now I feel young
'Cause I was a boy when I learned how to run
I could never be settled in one time or place
I won't ever stop, 'cause I know what's right
Get in my way I will burst into light
I'll keep dying and living and changing my ways
But I was a teenage rebel and that stayed the same
