we are all

in grams

Come to me, in your time of need.
When you are all alone, and there's no one to run to.
Come to me, in your time of need.
When you're so alone, and there's no one to run to.

Come to me, in your time of need.
When you're all alone.

Come to me, in your time of need.
When you're all alone, and there's no one to run to.
Come to me, in your time of need.
When you're so alone, and there's no one to run to.

Come to me.
[In your time of need]
Just come to me.
[When you're all alone]
And there's no one to run to.

Come to me.
[In your time of need]
Just come to me.
[When you're all alone,
And there's no one to run to]
