Black Box

The Morlocks

Featuring Bruno Mars
(Verse)
Sending out a mayday
We?re going down
Nothing we could have done
Would have turned it round
Everything we had scattered everywhere
Searching through the wreckage of a love affair
(Bridge)
You got something to say?
Say it to me
Not everyone else
You say that I?m to blame
My words are in vain
Don?t go fooling yourself
(Chorus)
There?s a little black box yea
Somewhere in the ocean
Holding all the truth about us
There?s a little black box
A record of emotion
Everything that ever was
You may deny it
But when I find it
I?m gonna play it aloud to the world
Little black box yea
In a little black box yea
(Verse)
There?s a lot of pressure when you get deep
You left me on my own at six hundred feet
I was looking round for a little help
But everyone was looking out for themselves
(Bridge)
You got something to say?
Say it to me
Not everyone else

You say that I?m to blame
My words are in vain

Don?t go fooling yourself
(Chorus)
There?s a little black box yea
Somewhere in the ocean
Holding all the truth about us
There?s a little black box
A record of emotion
Everything that ever was
You may deny it
But when I find it
I?m gonna play it aloud to the world
Little black box yea
In a little black box yea
(Verse)
You can?t stop a true survivor
You?ll discover that on your own
Cause I?m a true survivor
And I?ll be here after you?ve gone
Long after you?ve gone
Long after you?ve gone
(Chorus)
There?s a little black box yea
Somewhere in the ocean
Holding all the truth about us
There?s a little black box
A record of emotion
Everything that ever was
You may deny it
But when I find it
I?m gonna play it aloud to the world
Little black box yea
In a little black box yea
Little black box
Little black box
Little black box
