Turquoise

Christopher Vassilakis

Looking for a penny on an empty beach,
I've been looking for a lover who has eyes to see,
While we're there I wanna walk with you and hold your hand in the sun...
in the sun...
IN THE SUN...
Turquoisence colour I need to get clean,
the forest burned and with it something inside me
Looking for a way to leave the world today,
while the world is gonna leave us all anyway,
while I'm here I wanna walk with you and hold your hand in the sun...IN THE SUN...
Turquoisence colour I need to get clean,
the forest burned and with it something inside me

Together
Together
Together
Together
Together IN THE SUN...
I need to get clean
I need, I need, I need, I need, I need,
Turquoisence colour I need to get clean,
the forest burned and with it something inside me
Looking for a way to leave the world today...
