Get Off

Jimmie's Chicken Shack

everybodies talking 'bout my attitudes a problem
they say every step i take is atop someone elses head
everybodies talking i hear everybody talk
if it doesn't really matter why then give me so much shitand if i gave a flying fuck at all
would it change what will be
and if you pay any price for what you want
doesn't mean your horns will fit me
i said better not get off till you get off
better not get off till you get off
better not get off till you get off
till you get off
till you get
better not get off till you get offmy back, my back, my back, my back, my back
my back, my back, my back, my back, my back
my back, my back, my back, my back, my back
my back, my backand if i gave a flying fuck at all
would it change what will be
and if you pay any price for what you want
doesn't mean your horns will fit me to size
and if i gave a flying fuck at all
well it might just release me
and if i pay any price for what you want
well at least your sad ass might get off
