Suffocate

xDeathstarx

Hate all the blood on my hands
And the sins that bleed from my soul
Take, I take it all away make it go away
Stand up for bein'
The last one to control
What you're seeing
It starts from me
And the last to know
Stand up for bein'
The last one to control
But what you can't see is bein'
The last one to know
Fade into a dream
Try and save me from myself now
Save me from myself now
Fallen from the world
If I could ever breathe in the air
Maybe then I wouldn't suffocate
Face all the things that were
Real to me long ago to save my
Name, I never thought it would
Be such a long way to fall
Stand up for bein'
The last one to control
What you're seeing
It starts from me
And the last to know
Stand up for bein'
The last one to control
But what you can't see is bein'
The last one to know
Fade into a dream
Try and save me from myself now
Save me from myself now
Fallen from the world
If I could ever breathe in the air
Maybe then I wouldn't suffocate
Fade into a dream
See me from myself

See me from myself
Fade into a dream
Try and save me from myself now
Save me from myself now
Fallen from the world
If I could ever breathe in the air
Maybe then I wouldn't suffocate
Stand up for bein'
The last one
Stand up for bein'
The last one to fall
Stand up for bein'
The last one
