Hearing Aid

Bracket

I need a hearing aid, so I can turn it off
When you talk down to meI want the world to shut up just for one dayI need a cigarette, so I can light it up
When it's hard for you to breatheI want the world to shut up just for one dayMy day will come
Tell everyone that I'm away
Make yourself numb
You've just begun to stay the sameI need a hearing aid, so I can turn it off
When you talk down to meI want the world to shut up just for one day
