

# But for Grace

## Ace Troubleshooter

Fire burns in the grate  
The guilt burns in the breast of every prisoner  
The guilty, the condemned  
Death is red on their hands  
The galling chains reminding every minute  
The law that was broken  
Silent as the grave  
Covering deeds, covering man  
Eyes that pierce and blaze  
Wounded hands, stretching out to save  
Moonlit nights on their knees  
Stifling screams ready to break from conscience  
The voice of the innocent  
So the time marches on  
The future melts into the past  
At last, the bitter reprieve  
Silent as the grave  
Covering deeds, covering man  
Eyes that pierce and blaze  
Wounded hands, stretching out to save  
Silent as the grave  
Covering deeds, covering man  
Eyes that pierce and blaze  
Wounded hands, stretching out to save  
Silent as the grave  
Covering deeds, covering man  
Eyes that pierce and blaze  
Wounded hands, stretching out to save
