Flashed Junk Mind

Milky Chance

When we were young souls
On the junk-yard
Now we are stunned minds
Full of junk-goods
But I feel your heartbeat
Just like mine
I feel your heartbeat
All the timeAnd we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that day
And we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that dayWhen we were young souls
On the junk-yard
Now we are stunned minds
Full of junk-goods
But I feel your heartbeat
Just like mine
I feel your heartbeat
All the timeAnd we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that day
And we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that dayAnd we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that day
And we were bound to the citylife
Flashlights when we're falling into the night
Focused on what you feel
Just when you were calling her love that day
