

# Mean Street Rocket

**Gotthard**

I get up, I get down  
Bad luck, for those who mess around  
The streets of fireLook out, he's around  
Can you feel the shakin' ground  
He's ridin' again  
The streets of fireNo time for compromise at all  
Thunder, lightning, here it comes againThis is the mean street rocket  
This is the mean street rocket  
This is the mean street rocket I like, yeah I like!
