So Mystifying

The Hep Stars

You know you're so mystifying
You know you're so mystifying

Well, help me, baby, get a message too
You leave my mouth wide open by the things you do
First say you love me, then say we're through
You know you're so mystifying, I can't believe it's true

You know you're so mystifying
You know you're so mystifying

Well, every time I see you walking down the street
Try a mystifying wiggle from your head to your feet
Drive a shock wave pulsing into my brain
You know you're so mystifying, you're just everything

You know you're so mystifying
You know you're so mystifying

You know you're so mystifying
You know you're so mystifying

Well, mystify me by the way you walk
You're even mystifying by the way you talk
Sunday, Monday, Tuesday night and you'll be mine
Oh, little baby, you're so mystifying

You know you're so mystifying
You know you're so mystifying
You know you're so mystifying
