The Viking

Lars Frederiksen & The Bastards

Well how do you do
My name is Lars
im from Cambell california
you might know that by now
im of danish decent
for that im proud
see my father was a nomad
i havent seen him for awhile
lost a brother
still got a mother i aint motherless
for some of you out there
i know that might be hard to believe
see ive been up and ive been down
i've smiled and ive frowned
ive made a every gesture
that a young man can steal
and i know that im married to the sea
well i know im married to the sea
you see some people are locked down man
and some are free
but i know that im married to the seaWell ive been rich ive been poor
spend it all on whores
got married and divorce to the girl thats next door
stolen fast cars dated pop stars
been around the world
slept with underage women
turned tricks for a thrill
tried sucide but didnt die
well im here to tell
i dont know a heaven
but ive made peace with hell
been shot at been stabbed
been beatin up real bad
survived everything without being killedand i know im married to the sea
and i know im married to the sea
some people are locked down
some are free
and i know im married to the seaslept in fancy hotels eaten from garbage cans
down every highway i grew into a man

see my best friend die right before my eyes
aborted a baby and shed on my tears
been strung out on pills slammed my share of dope yea
i drank all your booze man and i snorted your coke
ive been loved ive been hated
to me its all the same
embraced by a lover your cursing my nameand i know im married to the sea
and i know im married to the sea
some people are locked down man
and some are free
and i know im married to the seaand i know im married to the sea
and i know im married to the sea
some people are locked down sugar
and some are free
and i know im married to the seaim married to the sea
you see the great big ocean
well thats for me
Sorry ladies im married to the sea
im married to the sea
im married to the seabut im free yea im free
