A Moment Forever

Volbeat

Keep it up my baby don't go don't leave it on top
Keep it up my baby don't go don't do it on top
Keep it on my baby ***** pop
Keep it up my baby don't go don't leave it on topSee all the livers walk hand in hand in the park
and hide all the action
once couple are frozen and bondage forever more
with chains around the ankles
standing like statues, so lucky to see them here
and feeling their presence
their love for each other was taking away by force
for ages and agesbe silent where ever they go
cos their movement is forever
be silent whenever they danceTheir story goes on that they're moving away by thoughts
from city to city
showing that love can't be killed even after dark, and even after death
dancing with shadows so lucky to see them here
and feeling their presence
the chain around my ankles rattling their melo song forever and ever
