The Last Atlant

Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
I hope you come true
Yeah, 1 2 3 4 Soon as you walk through the door
Countin' 5 6 7 8 9 One million thoughts quick hit my mind
(Have you been running) Where have you been lately
Oh, You know it drives me crazy
You know I miss your kiss
Hate to let you see me like this
Because I know when she's on my mind
She's got me all worked up inside
and I know it's going down tonight
because she's moving and its feeling right
Girl you got me feeling right
and I know that you've been hatin' me
let the things I said be history
You can move like that I can move like this
Girl you know its time to make a wish
Make a wish girl
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
yeah 8 7 6 to the 5 i'll be singing your song and i'll sing it all night
cause 4 3 2 1 i dont wanna be singing alone (singing alone)
you are the perfect melody but now my harmony is feeling outa key
i just wanna feel your love again (wanna feel love)
why dont you say that we're more than friends
because i know when she's on my mind
she's got me all worked up inside
and i know it's going down tonight
because she's moving and its feeling right
girl you got me feeling right
and i know that you've been hatinn' me
let the things i said be history
you can move like that i can move like this
girl you know its time to make a wish

make a wish girl
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
because your everything im looking for
i know cause' im not looking anymore
and im so lucky with the love i found
make a wish and tomorrow goes around
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
Its11:11make a wish n' make a wish and say x2
Its 11:11 make a wish make a wish and say x1
i hope you come true
and im so lucky with the love i found
love i found
lo-lo-love i found
and im so lucky with the love i found
