Mindless

Okay

The weak....and the strong
You got the right...you got youuuuur wrong
You got your hot....you got your cold
You got your new....you got your old
You got you high....you got your low
You got you fast....you got your slow
You got your off....you got your on
You got your fear....and you got your gun
You got your bound....your got your free
You got you....I got me
