Serenity

Dark Lunacy

See my eyes, my breaking own
The time has come and
Stolen me all
I'm walking to a puture lorn
Stand in peace
Where the silence grows
A sleeping angel in front of me
The stone and blood
Turn hand in hand, and show me
Garden gates so far from me
The fear to carry on
And this prayer is my only hopeCover me, I'm feeling cold
I know the buran is blowing back
I'm waiting for the light
Until my human cry
Until serenityWelcome clouds,
My autumn shades
Slowly burns your frozen grace
Lead me too, across my pain
Take me to ... Serenity
Storm of life,
Is breaking down the walls
Dark or shine,
The slaughter of mind
I'm afraid, watching over me
My lyrics ariseWings of stone,
I'm praying on my knees
You know me, remember my name
Just a dream, or a strange reality
You're sleeping, I'm here ... awakeWelcome clouds,
My autumn shade
Slowly burns your frozen grace
Lead me too, across my pain
Take me to ... SerenitySign your face, my human cry
Drink my tears
And break the stone
Eternity, eternity
Take my hand ... Serenity.
