Underneath

Starflyer 59

When you lie
There's a trail where the dead speak
Of things they've doneAnd how they always won
We know they never won
We know his number's doneJust when you realize
You go underneath for all wrong
You go underneath when we realize
You go underneathThere's no lights
When you fail
The check's in the mailSpeak of things we've done
And how we never won
I think our number's doneJust when you realize
You go underneath for all wrong
You go underneath when we realize
You go underneathJust when you realize
You go underneath for all wrong
You go underneath when we realize
You go underneath
