# Communicate

## ï¼³ï¼¥ï¼¬ï¼¥ï¼®ï¼¥

Isabelle, Isabelle did you take me out of your mind?
I've been driving all night just to see if you're alive
If we fell, could you tell?
I think, I want to know his name
It's a long way home, will it ever feel the same?
To communicate, to communicate
Isabelle, Isabelle who is it going to be at your bedside?
Fall asleep to the life you'll live until you die
Your silence setting down on me
Is going to kill what's still alive
It's a long way home, will it ever feel the same?
To communicate
Isabelle, Isabelle, it's a long way home
To communicate
Isabelle, Isabelle, it's a long way home
To communicate
Isabelle, Isabelle, why don't you come home?

I'm like the blue skies, blue skies, slowly moving on
There's nothing but daylight, daylight, daylight
You can't even see the sun
I'm like the blue skies, blue skies, slowly moving on
There's nothing but daylight, daylight, daylight
You can't even see the sun
For what it's worth you're all I know
We always try to communicate
Isabelle, Isabelle, it's a long way home
To communicate
Isabelle, Isabelle, it's a long way home
To communicate
Isabelle, Isabelle, it's a long way home
Isabelle, Isabelle, it's a long way home
Isabelle, Isabelle did you take me out of your mind?
