Desire Lines

Building Castles Out Of Matchsticks

When you were young
And your excitement showed
But as time goes by
Does it outgrow?
Is that the way things go?
Forever reaching for the goal
Forever fading black
Comes a glow
Walking free, come with me
Far away, every day
Walking free, come with me
Far away, every day

When you were young
You never knew which way to go
What was once gray
No undertones
Well, every day do what you can
If you let them turn you round
Whatever goes up
Must come down
Walking free, come with me
Far away, every day
Walking free, come with me
Far away, every day
