Solarscape

I need a better way to get my head straight
It's not like anybody would know
Gotta silver cloud high above me
Running circles around and round me
Turn it up again we're going nowhere
Let the sound surround everyone
I play the static with the noise in my head
Let the sound surround everyone
Go out the deep end
I've got nothing to prove
I've got nothing better to do
I'm so happy so fucken happy now
That I'm far from the glare of the city
Turn it up again we're going nowhere
Let the sound surround everyone
I play the static with the noise in my head
Let the sound surround everyone
Better way, better way, better way
I need a better way
I heard the white noise
With waves in radiation
They're falling from the sky
Turn it up again we're going nowhere
Let the sound surround everyone
I play the static with the noise in my head
Let the sound surround everyone
Turn it up again we're going nowhere
I play the static with the noise in my head
And let the sound surround
Turn it up again
Let the sound surround uhhh
