The Way I Feel

Remy Shand

Woke up and I got the feeling
Nobody's gonna make it easy
Left out when I wanna be inside
As it's all goin' downYour love is enough to feed me
Held up for another evening
Lord knows I could use the freedom

For waiting around when I need youWho are we to fall to pieces baby

Worked so hard to see things through (see it through, see it through)

Who are we to question each other mama

I know what it takes to make it right for youIt's the way I feel (repeat 4 times)This life there's no suprises

So good well I can't defy it

So true that I wanna try it

All without making a soundHooked up in a situation

I'm down with the invitation

New love and a revelation

For keeping my head to groundWho are we to fall to pieces baby

Worked so hard to see things through (see it through, see it through)

Who are we to question each other mama

I know what it takes to make it right for youIt's the way I feel (repeat 4 times)Here I come, here I come (repeat)It's the way I feel (repeat 8 times)
