Take a Chance

The Gaylettes

Yo, what's up sweetheart
How you doin', look
I know your man ain't been treatin' you right
But I need you to give me a chance
And I can make it better
You know what I mean, listen
You keep tellin' me how your man just ain't been treatin' you right
Baby, I can see the emotions that you're always tryin' to hide, yeah
All you do is fuss and fight everyday and every night
And I'll tell you he's no good for you but girl I wanna do
All the things to you your man won't do
'Cuz I know just what you're sayin'
I know what you're sayin', I know what you're lookin' for in love
I won't play no games, I'll be your everything
So take a chance on us, baby
I'll take your breath away every time that we make love
Baby, can't you see, I will set you free
So take a chance on us, it could lead to love
Look ma
All I wanna do is just be with you
Can that happen?
Listen
Girl, I know that he hasn't been the man to show you true love
So let's forget about the past and let me start to be the man
That you been dreamin' of
I don't wanna fuss, I don't wanna fight
Let me show you that I can make it right
So take a chance on us 'cuz it could be true love
Put it on everything
I know what you're sayin', I know what you're lookin' for in love
I won't play no games, I'll be your everything
So take a chance on us, baby
I'll take your breath away every time that we make love
Baby, can't you see, I will set you free
So take a chance on us, it could lead to love
Girl, I'll be more
More than you ever dreamed of
More kissin', more huggin', more love
More quality time for you and I

Girl, won't you take a chance on us?
I know what you're sayin', I know what you're lookin' for in love
I won't play no games, I'll be your everything
I'll take your breath away every time that we make love
Baby, can't you see, I will set you free
So take a chance on us, it could lead to love
Said, I know what you sayin'
And I know what you're lookin' for
Ghetto love 'cuz I love you, girl
And I need you girl, believe me, girl
I know what you're sayin', I know what you're lookin' for in love
I won't play no games, I'll be your everything
I'll take your breath away every time that we make love
Baby, can't you see, I will set you free
So take a chance on us, it could lead to love
