Something About You

Natalie

When I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysI never had anybody come and sweep me away
The way you do, I used to think it was funny
The way you had these girls trippin' on youI used to say you wouldn't get me like this
I used to play, try to play like you did
I used to be the one you had to chase
Now I see what I got to takeIf it takes getting to know you much longer than you should
I would go through it all for you but I never thought I would
'Cause the way you had me is a mystery and I can't figure it out
The way you put it on me with that smile of yours, now I need you aroundWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysOn a cloudy day, I could bring you sunshine, summer skies
I just had to say, that I know you never felt this way
I tell you, by the way, you're the one that I adore
Just let me say, it's you, it's you I want to know(Ooh girl, it's time for you to love me tonight)
It's time to love me tonight
(Lady, lady, lady, lady, lady)
I told you, you'd be feeling meWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysBoy you know that you're my baby
I love the way you make me smile
It took some time for me to see you
I know you've been there for a whileBaby girl you know I want you
I want to show you love
You really gotta know that, that I'm a fool in love

(A fool in love)When I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your waysWhen I'm without you, I think about you
Baby boy, all day
There's something about you, I like about you
Something about your ways
