Cmon talk - Live

Bernhoft

C'mon and talk to me
I will try the upmost
To be honest with you
Try to be honest with you
Every single

Work I'm gonna talk to me
I will try the upmost
To be rhythmical
Try to be rhythmical

I've been thinking a lot since the end
Of our family affair
And the things that went wrong, in a matter of speaking
Should have been more forthcoming
About the things I needed to say
But you've seen to be talking to someone else

Now you've got me feeling so sorry
For something I didn't do
You've got me crawlin' around a gutter
When I should have been busy
Making love to you
So it's all smoothed over
You covered your ears real tight
Is it up to me to be telling
The black from the white?

Talkin' to you is bittersweet, bittersweet
Now talkin' to you is bittersweet, bittersweet
Now talkin' to you is bittersweet, bittersweet
Been now talkin' to you, bittersweet, bittersweet

C'mon talk t'talk t't'talk t'talk
To me yeah
To me yeah

So what matters most in the end
Is beyond our big blue reeds

Had to unfold all the mysteries

It take a different kind of species
I'm unable to handle the weight
Of all of your doubts
What a new words

Now you've got me feeling so stupid
When I couldn't understand
You've got me reeling around in circles
Incomprehensible demand

Talkin' to you is bittersweet, bittersweet
Now talkin' to you is bittersweet, bittersweet
Now talkin' to you is bittersweet, bittersweet
Been now talkin' to you, bittersweet, bittersweet

C'mon talk t'talk t't'talk t'talk
To me yeah
To me yeah
