Photograph

Lauren Pritchard

January you have
Come to greet me with a secret smile
What you wanna say
Tell me February's
Gonna make me happy over time
In a million ways
Cause im marching into madness
And i think i need a road mapCause 20 years have come and gone
And i cant remember half the things ive done
Or who i was to bring me here today
And i want a photograph
Of every month ive ever had
Cause they go so fast and i just want one to stay
But it doesnt work that wayApril, dont you know
You bring the rain, it overflows the city drains
It weighs my walking down
And May, oh maybe you will
Shine a light on me to keep me warm
And show me that you missed me
Just like i miss the june bugs
When we sit and watch the fireworksCause 20 years have come and gone
And i cant remember half the things ive done
Or who i was to bring me here today
And i want a photograph
Of every month ive ever had
Cause they go so fast and i just want one to stay
But it doesnt work that wayAugust comes, September goes
And soon the pumpkins getting all the love
But hes a selfish guy
And november ill admit
You got a way of making me
Remember what im really thankful for
And ill send my christmas cards
But it doesnt matter cause
No ones returning them anymoreCause 20 years have come and gone
And i cant remember half the things ive done
Or who i was to bring me here today
And i want a photograph
Of every month ive ever had

Cause they go so fast and i just want one to stay
But it doesnt work that way
It doesn't work that way
No it doesn't work that way
