

# Past Life

**Ted Shinn**

There you were standing against the wall  
Looking cool, sippin and lippin with your group of friends  
And I knew just as easy as the air I breathe  
You had a vibe that gave me reason to believe  
    .and I knew (I knew)  
It was you (it was you)  
    Yes I knew (I knew)  
It was you (it was you)If your past life finds you once more maybe  
    The one you're lovin now you loved before  
    So familiar it feels so right baby  
Maybe I knew you in a past lifeThere we were inside a dungeon in spain  
    Or we were lions making love in the rain  
    In south america or was it japan  
You were a woman, maybe I was a manBut I knew (I knew)  
    It was you (it was you)  
    Yes I knew (I knew)  
It was you (it was you)ChorusAnd you walk over to me with that old cliché  
    Don't I know you from somewhere someplace  
    I start to laugh and say that just might be  
This ain't the first time it's been you and meAnd I knew (I knew)  
    It was you (it was you)  
    Yes I knew (I knew)  
    It was you (it was you)
