# Living Water

## Ryan Farish

I feel your touch, I can feel Your heart
As I'm lying here alone in the dark
I hear your voice gently say, "Come to me?
I long for Your love as the earth longs for the rainfall
I'm weary Lord, I've wondered this desert too longSo come living water flow through me like a river
My heart's been thirsting so long
Flood through my soul and pour out Your mercy
Come living water fill meLord so many times You've called my name
And I've turned my face the other way
Yet before I even saw the womb, You love me
How can I be so blind when I alone have created my darkness
Forgive me Lord and wash me clean againSo come living water flow through me like a river
My heart's been thirsting so long
Flood through my soul and pour out Your mercy
Come living water fill meCome living water flow through me like a river
My heart's been thirsting so long
Flood through my soul and pour out Your mercy
Come living water fill me
Come living water fill me
