Island

Yuna

You're an island, I'm just a little boat
I'm heading somewhere I don't even know
Hope you don't mind me stopping by your shore
Come with me and you'll never be alone
Open up your heart to me
We'll explore the seven seas
Sail away and find your dreams
And if you drown, I'll help you keep your head up
And if you drown, I'll help you keep your head up to breathe
You will lead the way out of battle storm
We can let the waves tell us where to go
We can always do anything you want
We will try to capture that much we lost
Open up your heart to me
We'll explore the seven seas
Sail away and find your dreams
And if you drown, I'll help you keep your head up
And if you drown, I'll help you keep your head up to breathe

And we watch the blue skys
Before the sun rise
When the tide is getting high
I'm here by here
And we watch the blue skys
Before the sun rise
When the tide is getting high
I'm here by here
Open up your heart to me
We'll explore the seven seas
Sail away and find your dreams
And if you drown, I'll help you keep your head up
And if you drown, I'll help you keep your head up to breathe
Open up your heart to me
We'll explore the seven seas
Sail away and find your dreams
And if you drown, I'll help you keep your head up
And if you drown, I'll help you keep your head up to breathe
