Rocket Roll

Hattie Green

My city's getting stoopid
My woman makes me sick
I'm gonna blow their world away
I cannot live unless I'm free
The children are angry
'Cause they can't play control
They're looking for trouble
Anticipatin funOh...I can't stand still
I just wanna be free
I'm gonna lift up like a rocket
It's rock'n'rollI'm bored to see the next day
You're such a blind-so blind to see
I'm giving all I can baby
Guess you know-you know what I mean
Think about a year ago
How we lived I'll never know
So I gotta go my way now
And you'll see where I belong
